

Instructions to download an Airport in RealFlight

-  Startup/Run a RealFlight session
-  In the top menu select Help
 - Select Websites
 - Select Swap Pages
 - Under Categories Select RealFlight 9.5
 - Select Airports
 - Find and Select Concord AeroGuidance Society CAGS PI
 - In the top right corner Select Download (you will need to be logged in to Knife Edge to be able to download anything. If you are not registered, you will need to register and then login)
 - Close the Knife Edge session and go back to your RealFlight session
-  In RealFlight select Simulation
 - Select Import
 - Select RealFlight Archive (RFX, G3X)
 - In the Downloads window, Select Concord AeroGuidance Society CAGS PI
 - Click OPEN
-  In the top menu of RealFlight, Select Environment
 - Select Airport
 - Go to Custom Airports/Photofields
 - Select Concord AeroGuidance Society CAGS
 - Click OK
-  DONE

This same process is used to download any other airfield, aircraft, color scheme or modified aircraft.

NOW enjoy flying at CAGS Field!! Have FUN
